"Its Masters Voice"

The Boston Voice Users Group
Presents
Open Meeting

This month we will have an open meeting. While the meeting will be moderated, if someone wants to lead the group in a discussion of a specific speech recognition topic of their choice, please let us know. Bring your news, bring your questions, bring your solutions. Anything related to speech recognition is fair game in this informal session.

We are still reviewing and planning meeting ideas, please bring yours.

When: Tuesday, July 13, 2010, 7:30 pm

Where: MIT, Room 2-131

Boston Voice Users Group is a not-for-profit member run group for those using or interested in personal computer speech recognition software.
